

## Content

Chapter No.	Particulars	Page. no.
I.	Introduction	1
II.	Weather data	7
III.	Staff position and Expenditure statement	8
IV.	Executive Summary (English & Hindi)	10
V.	Results of practical utility	12
VI.	Recommendations passed on to state package of practices	13
VII.	Research achievements	13
A: Network trials		
1.	WS 1 Weed surveillance and monitoring	14
	WS 1.1a Monitoring of appearance of new weed species	
3.	WS 3 Weed management in crops and cropping systems	
	Weed management in pulses and oilseed crops	
	WS 3.4.1 Studies on time of application of Imazethapyr and its ready mix combination with Imazamox against weeds in Blackgram	14
	WS 3.6 Weed management in conservation agriculture systems	
	Maize - wheat cropping system	25
	WS 3.7 Long-term herbicide trial in maize-wheat cropping system	25
B. Station trials		
	WS 3.8.10 Effect of different herbicide combinations for control of complex weed flora in maize	35
	WS 3.8.16 Effect of herbicide combinations and balanced fertilization on control of complex weed flora and productivity of soybean	55
4.	WS 4 Management of problematic weeds	
	WS 4.2 Making <i>Parthenium</i> free campus	69
6.	WS 6 On-farm research and impact assessment	
	WS 6.2 Front Line Demonstration (FLD)	69
	WS 7 Extension Activities	69
	WS 7.1 Trainings on weed management technology and herbicide application techniques	69
VIII.	TSP programme	70
IX.	List of publications (research, abstract of seminar / symposia / conference, technical/extension bulletins, popular articles, books/book chapter, radio / TV talks etc.)	70
X.	List of trainings / Awareness campaign	72
XI.	Awards/recognitions/students guided	72
XII.	Linkages and collaboration	73
